2 Meetings

All members agree to meet 5:30pm-7:30pm every Monday. We are reserving Upchurch 212 for these weekly meetings. Exceptions: February 17 and April 20. In these cases, we will instead meet at the lab.

If another meeting is necessary, then all group members agree to meet Wednesdays at 6pm in the Stevens Lab. These will be called on as needed, and not required every week.

3 Documentation

3.1 Communication

We are communicating through a group channel on Slack, with Dr. Dymacek as an additional member.

Notes are taken by Daniel Milstead for weekly meetings, posted on GitHub Wiki section.

3.2 GitHub

Source code will be uploaded and stored on the GitHub repository. Our Kanban board will live mainly on GitHub as well, though we may be using a smaller physical one for weekly meetings.
